01 February 2021
DATE

Date of first registration: 01 February 2019

Valid until 31 January 2022

ELPA National Director

The employees from the company who perform work on the design and installation of lightning protection systems (LPS) which includes the earthing thereof, may do so without supervision from another entity provided they have the necessary designer and/or installer certification to do so. Employees registered with ELPA are listed in the supporting registration list.
The declaration on this certificate must be read in conjunction with the supporting registration list.
All work completed by the company must be signed off with the completion of the ELPA LPS Certificate.
